Cristos Ben, Director of Human Resources,

NewYork Llc,

1111 Center AVE

Redland, NY, 45879-8762

Dear Mrs. Ben,

I am writing in response to your job posting on LinkedIn last Week, indicating the company's need for a DevOps Engineer. With my experience, educational background, and relevant skills in the field, I believe I might be the individual your company is looking for.

I know the field even though I studied for a bachelor's degree in Mechanical engineering but worked as DevOps engineer in TCS for one year, and I am currently pursuing a master's degree in computer science. I am also a quick learner, innovative, and self-driven individual with solid numeracy and problem-solving skills. I also gained experience in the field while working as a software engineer in Tata Consultancy Services. I am also well served with Java, HTML, and SQL technologies. I developed end to end CI/CD automation pipelines in multiple clouds platforms like AWS, Azure and Sales Force.

Your company is the most suitable in terms of interest. Its success in website development and working with you will give me further exposure, help me gain experience, and develop my skills

towards becoming a competent DevOps engineer. I am very excited and interested in working with you. I can be reached by phone at +1(475) 287-8679 or via e-mail at

akmal301khan@gmail.com

Thank you in advance for your consideration and time. I look forward to hearing from you.

Sincerely,

Akmal Khan.
